2018 CATALOG

## FritzGuard®

FritzGuard® is a safe and effective pH buffered water conditioner that neutralizes toxic chlorine, chloramines and heavy metals found in tap water.

FritzGuard promotes healing and reduces fish stress with Aloe Vera, Vitamin E, and provides necessary electrolytes. FritzGuard provides a replacement slime coat to aid fish that have lost theirs or have been injured due to stress, poor water conditions, illness or handling.

FritzGuard enhances bio-filtration by producing a slime coat over the filter media, aiding in the attachment of beneficial bacteria, like those in FritzZyme® biological products.

Item #	Size	Treats
80255	4oz	240 Gallons
80259	8oz	480 Gallons
80256	16oz	960 Gallons
80257	1G	7680 Gallons
80261	5G Cube	38400 Gallons
80258	5G Bucket	38400 Gallons

## Fritz Complete

Fritz Complete is a concentrated, one-step, full-spectrum water conditioner that detoxifies chlorine, chloramine, ammonia, nitrite and nitrate. Safe to use in fresh and saltwater, including reef and planted aquariums. Use when setting up new aquaria and performing water changes.

Item #	Size	Treats
47505	4oz	1200 Gallons
47510	8oz	2400 Gallons
47515	16oz	4800 Gallons
47520	1G	38400 Gallons

## Fritz A.C.C.R.

Fritz A.C.C.R. (Ammonia, Chlorine & Chloramine Remover) is a trusted liquid formulation that instantly, easily and safely detoxifies deadly ammonia from fresh and saltwater aquariums. Also detoxifies chlorine and chloramine from tap water. Will not alter pH or deplete oxygen levels.

Item #	Size	Treats
80234	4oz	240 Gallons
80238	8oz	480 Gallons
80233	16oz	960 Gallons
80239	1G	7680 Gallons
80236	5G Cube	38400 Gallons
80237	5G Bucket	38400 Gallons

## Fritz Clarifier

Fritz Clarifier rapidly clears cloudy, discolored water by pulling together (flocculating) fine particles suspended in the water column, allowing them to settle to the bottom or be removed by the filter.

Fritz Clarifier is a 100% phosphate-free formula that will not affect biological filtration, pH or other essential water parameters. Safe and effective for use in fresh and saltwater, including reef and planted aquariums.

Item #	Size	Treats
80176	8oz	480 Gallons
80177	16oz	960 Gallons

## Fritz Algae Clean Out

Fritz Algae Clean Out is the most concentrated EPA registered aquarium algaecide available. Fritz Algae Clean Out is safe for fresh and salt water aquariums, and targets common aquarium algae including string algae, blanketweed and green water caused by single-celled algae. Unlike other algaecides on the market, Fritz Algae Clean out contains no copper and will not harm fish and live plants when used as directed.

Item #	Size	Treats
48004	4oz	1419 Gallons
48008	8oz	2839 Gallons
48016	16oz	5678 Gallons
48128	1G	45424 Gallons

## pH Higher/Lower Neutralizer

Concentrated, safe and easy to use formulations to adjust and maintain the correct pH for both freshwater and saltwater aquariums.

Item #	Description	Size
80359	Fritz pH Higher	4oz
81104	Fritz pH Higher	16oz
80355	Fritz pH Lower	4oz
81103	Fritz pH Lower	16oz
80284	Fritz pH Neutralizer	8oz
80285	Fritz pH Neutralizer	1 lb
80287	Fritz pH Neutralizer	3 lb

## Fritz Glass & Acrylic Cleaner

A unique streak-free and drip-free formulation helps repel dust, fingerprints and water spots. Ammonia-free and safe to use on exterior surfaces on and around the aquarium.

Item #	Size
54008	8oz

## THE ORIGINAL LIVE NITRIFYING BACTERIA

**Rapidly Eliminates Toxic  
Ammonia and Nitrite**

**Allows Safe Immediate  
Introduction of Livestock**

**Prevents "New Tank  
Syndrome"**

**Instantly Establishes and  
Maintains a Healthy Bio-filter**

**Prevents Fish Loss**

**A Safe, Natural Approach to  
Water Treatment**

### Why Add Nitrifying Bacteria?

Nitrifying bacteria can take weeks to naturally establish colonies in new aquariums while ammonia and nitrite can reach lethal levels in only a few days. FritzZyme® Live Nitrifying Bacteria provides the species of bacteria proven by professional zoos, aquariums, universities and aquaculture facilities to rapidly seed bio-filters. FritzZyme® quickly removes toxic ammonia and nitrite in existing systems and greatly reduces cycle time allowing for safe, immediate addition of livestock in new systems. FritzZyme® Nitrifying Bacteria may be added to new tanks or established systems any time the bio-filter needs fortification including: after water changes, aggressive cleaning, adding new livestock, medicating, or changing filter media.

### Environment-Specific Solution

FritzZyme® 7 & TurboStart® 700 contain freshwater-specific species of nitrifying bacteria while FritzZyme® 9 & TurboStart® 900 contain saltwater-specific species. Many biological products on the market claim to be an "all-in-one" solution for both freshwater and saltwater systems, this approach fails to introduce the most effective species of bacteria biologically suited for the appropriate aquatic environment.

### Live Viable Product

Unlike some heterotrophic bacteria, which can survive in a long-term spore state, only true nitrifying bacteria can cycle an aquarium. True Nitrifying Bacteria are fragile and temperature-sensitive, which is difficult to produce and package. FritzZyme® TurboStart® is the most concentrated product on the market. Every bottle of TurboStart has an expiration date and a 4-month refrigerated shelf life to ensure viable, effective product.

### Years of Proven Success

Fritz Industries has been producing the highest quality, viable nitrifying bacteria for over 30 years and was the first company to commercially produce nitrifying bacteria for the aquarium industry. Fritz Industries has remained a leader in the industry with continuous research, production and development. Several recent studies by universities, including the Texas A&M University Mariculture Laboratory have proven the effectiveness of FritzZyme® Nitrifying Bacteria. There are very few producers of true live nitrifying bacteria, none of which can match the experience and success of FritzZyme®.

## THE #1 CHOICE OF PROFESSIONALS

AQUACULTURE, ZOOS  
& AQUARIUM EXHIBITS  
AROUND THE WORLD

### FritzZyme® 7 & 9

- Freshwater & Saltwater Specific Species
- One Year Shelf Life

FritzZyme® 7 contains freshwater specific species of nitrifying bacteria while FritzZyme® 9 contains saltwater specific species. When used as directed will greatly speed up natural cycling process. FritzZyme® can also be used to remove ammonia created from new livestock, over feeding, aggressive cleaning, moving aquariums, medicating or any situation that could cause the biological filter to under perform.

Item #	Description	Size	Treats
80207	FritzZyme 7	8oz	Up to 40 Gallons
80209	FritzZyme 7	16oz	Up to 80 Gallons

### Ammonium chloride

Item #	Size
98500	500 gram

### FritzZyme® TurboStart® 700 & 900

- Freshwater & Saltwater Specific Species
- Instant Cycling!
- Four Month Refrigerated Shelf Life
- The Most Concentrated Product in the Industry
- The Choice of Professionals Around the World

FritzZyme® TurboStart® contains the same species as regular FritzZyme® Nitrifying Bacteria, but much more concentrated. When used as directed can remove up to 5ppm ammonia within 24 hours. Add to new tanks with livestock to instantly cycle or can be used with ammonia source for fishless cycling.

# PROBIOTIC BIOLOGICAL AQUARIUM CLEANERS

***A Safe, Natural Approach To  
Water Treatment***

***Promotes a Clean, Clear  
& Healthy Aquarium***

***All Natural Sludge Eliminating  
Bacteria Rapidly Digest Waste***

***Rapidly Eliminates Foul Odors***

***Biologically Assists  
Nitrification***

***Clarifies Water For  
Improved Water Quality***

***Improves Flow Through Filters***

***Reduces & Simplifies  
Maintenance***

## FritzZyme® 360 & 460

Powerful probiotic blends of naturally-occurring heterotrophic bacteria specifically chosen for their ability to quickly digest organic sludge common in aquariums. Sludge includes fish waste, leftover food and other decaying organic matter which when left unchecked can lead to algae growth.

Using FritzZyme® 360 & 460 biological aquarium cleaner as a part of regular maintenance will greatly reduce the need for gravel cleaning and water changes, as well as prolong the life of filter media. Rather than relying on freshwater bacteria to treat both fresh and saltwater, Fritz Industries has identified the species that naturally occur and perform best for each environment.

Item #	Description	Size	Treats
83302	FritzZyme® 360	8oz	Up to 473 Gallons
83303	FritzZyme® 360	16oz	Up to 946 Gallons

# MONSTER 360/460

CONCENTRATED  
FOR MONSTER  
FISH KEEPERS !!!!

## FritzZyme® **MONSTER** 360 & 460

FritzZyme® **MONSTER** 360 & 460 contain a highly concentrated blend of bacteria specifically selected for keepers of **MONSTER** fish. Keeping the environments of these particular species clean and healthy can be challenging.

FritzZyme® **MONSTER** 360 contains freshwater specific species of beneficial bacteria and is the perfect maintenance product for keepers of Freshwater **MONSTER** fish including Arowana, Oscars, Flower Horn Cichlids, Sting Rays, Piranha, etc. as well as heavily stocked tanks like African Cichlid aquariums. FritzZyme® **MONSTER** 460 contains saltwater specific species and was developed for the keeper of Monster Marine species like grouper, large angels, puffers, triggers, sharks, eels, rays, etc.

Using FritzZyme® **MONSTER** 360 & 460 as part of a regular maintenance program will help lengthen the time between water changes, prolong filter media life and help keep water crystal clear.

Item #	Description	Size	Treats
75016	FritzZyme® MONSTER 360	16oz	Up to 4730 Gallons
75032	FritzZyme® MONSTER 360	32oz	Up to 9460 Gallons

# FRITZ AQUATICS **Mardel**®

## TRUSTED & PROVEN REMEDIES

### Coppersafe®

Safe, stable, and non-staining chelated copper concentrate delivers relief from unwelcome parasites. Provides effective treatment and control of Ick, Velvet, and other external parasites of fresh and saltwater aquarium fish including flukes and anchor worms. Long-lasting chelated copper sulfate solution remains active, maintaining therapeutic levels, for over one month in the aquarium.

Item #	Size	Treats
42020	4oz	94 Gallons
42060	16oz	378 Gallons
42080	1 G	3024 Gallons

### QuICK Cure®

Scientifically formulated liquid medication that cures Ick in two days and lymphocystis in one week. Effective in fresh and salt water.

Item #	Size	Treats
41050	16oz	4300 Gallons
41060	1 G	34500 Gallons

### Maracyn® Plus w/BioSpheres

A broad spectrum liquid antibiotic for controlling the bacteria that cause mouth fungus, fin and tail rot, popeye, dropsy and ulcers. A revolutionary new technology delivers the antibiotic directly to the fish. As the Bio-Spheres attach to the fish, they form a protective medicated layer over the fish's skin.

Item #	Size	Treats
48100	4oz	118 Gallons
48105	8oz	236 Gallons
48110	32oz	946 Gallons
48115	1 G	3784 Gallons

### Maracyn® Oxy

Successfully controls fungal infections caused by Saprolegnia, Ichthyosporidium, egg fungus and related species as well as common bacterial infections.

Item #	Size	Treats
44000	8oz	472 Gallons
44060	16oz	1888 Gallons

### Maracyn® & Maracyn® Two

Broad spectrum antibiotic powder treatment against bacterial and fungal diseases of fish. Maracyn® is effective against gram positive bacterial infections and Maracyn® Two against gram negative bacterial infections.

Item #	Description	Size	Treats
46000	Maracyn®	8 pack	Up to 80 Gallons
46040	Maracyn®	24 pack	Up to 240 Gallons
46050	Maracyn®	280 gm jar	Up to 4660 Gallons
47000	Maracyn® Two	8 pack	Up to 80 Gallons
47040	Maracyn® Two	24 pack	Up to 240 Gallons
47050	Maracyn® Two	280 gm jar	Up to 4660 Gallons

### Clout®

Highly effective against flukes, planaria, parasitic copepods, hexamita and hydra.

Item #	Size	Treats
48000	100 tab	1000 Gallons

# REVOLUTIONARY HERBAL REMEDIES WITH PATENTED BIOSHIELD TECHNOLOGY

## ParaShield®

- A Safer Way to Treat Ick
- Helps Remove Stubborn Infestations of Parasites Without the Use of Dyes and Metal Based Chemicals
- Helpful in Treating Larger Parasites

## BacterShield®

- Effective in Controlling Bacterial & Fungal Infections

Item #	Description	Size	Treats
43000	BacterShield®	4oz	590 Gallons
43032	BacterShield®	32oz	4720 Gallons
43100	ParaShield®	4oz	590 Gallons
43132	ParaShield®	4oz	4720 Gallons

## REVOLUTIONARY HERBAL FORMULAS TO MAINTAIN FISH HEALTH

- Provides Relief from Unwelcome Parasites with Natural Oils & Extracts
- Patented Film Forming Matrix and Polymers Delivers Treatment to the Fish Itself
- Concentrated / Economical Formula - 4oz Treats 590 Gallons
- For Fresh & Salt Water, Reef Safe!

The Mardel Shield Products contain proven new natural oils and extracts combined with a patented film forming matrix to help repair and strengthen the fish's natural slime coat and help provide a protective shield around freshwater and saltwater fish. The natural oils are combined with a polymer that acts as a slime coat and carries the treatment directly to the body of the fish. A protein solubilizer helps promote the penetration of the oils into the cell structure of the fishes skin. The crowning additive is a patented\* Film Forming Matrix Technology. This causes the treatment package to be covered with a shield to maintain contact.

A fish's slime coat acts as the first line of defense against bacterial and fungal infections. These proven bio-adhesive supplements repair and strengthen a fish's natural slime coat which strengthens the fish's defense against bacterial, fungal, protozoan and parasitic infections of the fins, tail and skin.

\*U.S. Patents 8,512,766; 8,747,918

## NEW! Formaldehyde Free Effective Ich Control!

### FIXICK

- Formaldehyde/Malachite green free
- Fast Relief for Ick and Protozoan Parasites
- No ICK visible in less than 48 hours in most cases

FixIck is an extremely fast acting remedy for parasitic and protozoan infections such as ICK in freshwater and saltwater aquariums. Potent natural oils and extracts are combined in a film forming matrix that attack the parasites directly on the their body for fast results. FixIck should be used at the first signs of any infection to help prevent the spread of parasites to other animals in the aquarium. FixIck will NOT cause liver and spleen damage in fish unlike competing products with Formaldehyde as an active ingredient.

Item #	Size
57050	4oz
57060	8oz

### Methylene Blue

- Prevents Disease Spread in Transport
- Effective Fungus Control
- Aids in General Disease Control

Methylene Blue effectively prevents and protects against superficial fungal infections of fish and also protects newly laid fish eggs from fungal or bacterial infections. As a secondary use it is also effective against some external protozoans, including Ichthyophthirius (Ich).

Item #	Size
86804	4oz
86816	16oz

### Malachite Green

- Removes Fungus from Fish
- Expels Parasites and Protozoa
- Protects Fish Eggs from Infection

Malachite Green is effective in treating external parasitic, protozoan and fungal infections of fish, and will also remove existing fungal growth on fish eggs.

Item #	Size
46004	4oz
46016	16oz

# PROFESSIONAL LIQUID SALTS

## Fritz QUICK CHANGE

- High Quality Reef Formula
- The Fastest & Easiest Way to Make and Change Saltwater
- Perfect for Nano Tanks!

Fritz Quick Change is a premium salt formula in an easy to use, unique, liquid concentrate. When mixed with fresh water, Quick Change produces instantly stable saltwater with all the major, minor and trace elements typical of natural seawater along with enhanced levels of magnesium and calcium. Unlike a dry salt mix, Quick Change is pre-dissolved to avoid the wait time necessary for allowing pH and other critical parameters to normalize. Fritz Quick Change can be safely mixed and added instantly to an existing saltwater aquarium, used to raise salinity or for brackish aquariums.

Item #	Size	Makes (32ppt)
80200	64oz	4.5 Gallons
80201	1 G	9 Gallons

## Super Salt Concentrate

- High Quality Professional Formula
- 5 Gallons Makes 400 Gallons of High Quality Saltwater

Fritz Super Salt Concentrate is a research grade reef salt that contains all the natural trace elements and buffers found in natural salt water minus the Sodium chloride. When mixed with the appropriate amount of Sodium chloride, Fritz Super Salt Concentrate provides proper specific gravity (salinity of 34-36 PPT or 1.020 to 1.023 at 75 F). This unique salt comes in a semi-liquid (gel) form. The drying in other salt processing separates out necessary trace elements and buffers; the drying process can also cause non-uniform batches and higher impurity levels. Fritz's semi-liquid form and pre-dissolving process ensures uniform batches and even distribution of trace elements without the quality problems associated with other salts.

Item #	Size	Makes
80249	5G Bucket	400 Gallons

#### RPM Parameters

SALINITY	35 ppt (1.0264 sg)
CALCIUM	400-450 ppm
MAGNESIUM	1300-1425 ppm
ALKALINITY	8.0 - 9.5 dkh
STRONTIUM	9 ppm
POTASSIUM	400 ppm

## RPM (Reef Pro Mix) Complete Dry Salt Mix

- Complete Professional Marine Salt Mix for Reef or Fish Only Systems
- Contains All Essential Major, Minor & Trace Elements in Optimum Levels
- Enhanced Buffer Levels; Reaches a Stable Natural pH Shortly After Mixing
- Nitrate, Phosphate & Ammonia Free

Fritz RPM (Reef Pro Mix) is manufactured using only the highest quality raw materials. Formulated by researchers and marine scientists, RPM contains all of the necessary major, minor and trace elements found in natural sea water that are utilized by marine and reef animals. Correct pH and buffering capacity along with essential minerals and trace elements have been added in precise ratios to ensure a correctly blended mix for the health and longevity of any reef aquarium.

RPM is manufactured in our own facility to ensure complete quality control rather than outsourced to generic chemical blenders with uncertain quality control standards. Fritz's salt blending equipment is dedicated solely to the production of aquatic salt blends, preventing contamination issues. Fritz's unique production process promotes a uniform particle size minimizing stratification of the salts. Each batch is assigned a lot number and tested twice by in-house quality control to ensure its chemical quality and purity before it is shipped. Fritz salts are used by public aquariums, zoos, coral wholesalers, research institutions, aquaculture facilities and hobbyists of all levels worldwide.

Item #	Size	Makes (30ppt)
80280	14lb bag	53 Gallons
80270	48lb bucket	180 Gallons
80243	55lb box	205 Gallons
80251	55lb box (4 bag)	205 Gallons

Maintain Your Reef with RPM Elements

## RPM Reef Elements

- Easy to Use Liquid Reef Chemicals
- Formulated to provide all the proper ratios to duplicate the composition of natural seawater
- Two Part Calcium Alkalinity Buffer System and Magnesium

Easy to use, concentrated liquid reef chemicals formulated using clean, high quality raw materials. Fritz RPM Elements do not include a laundry list of untested, unqualified "trace" elements and metals that can eventually lead to a toxic breakdown in your reef. Fritz RPM Elements when combined with Fritz Reef Pro Mix Complete Sea Salt are your keys to a beautiful, healthy and long lived reef aquarium.

# NUTRITIONAL REEF FOODS

## S.E.L.C.O. Boost

All Inclusive high quality food soak designed to boost aquarium foods nutritional value and immune boosting efficacy. Easily taken up by both dry and frozen diets that will improve color, boost immune systems, general health and appetite in your prized livestock.

Item #	Size
09604	3.75oz

## AZOX CORAL MACRO DIET

A nutritious diet specially designed for both photosynthetic and non-photosynthetic coral, Gorgonia and larval fish. AZOX is comprised of multiple sizes zooplankton gut-loaded with phytoplankton and selected for their size, nutrition and attractions by coral.

Item #	Size
09607	8oz

## ROTIPLEX ENRICHED ROTIFER ADDITIVE

Formulated with AZOX technology, ROTIPLEX contains aquacultured rotifers fed a staple diet of Omega rich Phytoplanktons. An ideal diet for freshwater and saltwater fish breeders, reef enthusiasts, and those looking for a small nutritious and attractive treat for planktivores.

These Rotifers include eggs and animals.

Item #	Size
32774	8oz

## NAUPS & NAUPS-D

NAUPS and NAUPS-D contain two sizes of Brine Shrimp Nauplii, harvested within 12 hours of hatch and enriched with S.E.L.C.O. Boost. A small nutritious and attractive treat for both freshwater and marine specimens without the hassle of hatching and enriching brine shrimp. Contains two species and sizes of brine shrimp. NAUPS are encapsulated, NAUPS-D are decapsulated.

Item #	Description	Size
83787	Naups	8oz
32777	Naups-D	8oz

## GENESIS EGG SPHERES

Made from real marine fish and invertebrate eggs and treated with vitamin boosters, GENESIS will stir your fish into a feeding frenzy while giving them great nutrition. These lipid packed spheres flow easily on currents in your aquarium. Watch your fish chase them and pack their bellies with vitamins and quality calories.

Item #	Size
48348	8oz

**Allow your reef to reach  
its *full* potential!**

## PHYTO 2

Phyto2 Multipack features two species of phytoplankton high in both DHA and EPA to create a complete nutritional profile. Each species is bottled separately to prevent the buildup of toxins from inter species warfare. Phyto2 includes a bottle of live *Nannochloropsis oculata* and *Tetraselmis* sp. phytoplankton suspended in purified sterile seawater.

Item #	Size
09601	8oz
09602	16oz
09603	32oz

## ZOO2 LIVE COPEPODS

Captively cultured vs. collecting from wild populations assures parasitic free specimens. Available in *Tisbe* sp., *Pseudocyclops* sp. and non-tropical *Tigriopus californicus*. Our copepods are fed a regimen of nutritious microalgae and enrichment protocols. Zoo2 will arrive healthy and ready to reproduce in your aquarium and refugium. Packaged in jars designed to offer a wide surface area for specimens to thrive during transport.

Item #	Description	Size
48347	ZOO2 TIG	8oz
48345	ZOO2 TIS	8oz

## SEA GREENS

- 100% NATURAL Pressed Select Marine Seaweed
- Better nutrition, better growth, better health!

Sea Greens is produced from natural macro algae based seaweed. Available as compressed green algae, red harvested algae and kelp. Sea Greens are a unique and completely natural way to feed herbivorous fish and inverts and can be purchased as compressed algae only, 39g, 59g pouches of mixed algae or Kelp only. These nutritious macroalgae outperform terrestrial based vegetable because they are made from sea greens that marine animals eat in the wild. Aqua-Tech Co. has selectively sourced supplies to avoid human activities detrimental to the sea.

Item #	Description	Size
32770	SeaGreens Organic Green Nori	39 gm
32771	SeaGreens Mixed Algae (Nori, Red Gracilaria)	59 gm

22016	16oz	1920 Gallons
22032	32oz	3840 Gallons
22128	1G	15360 Gallons

### FritzPond Complete

The true all-in-one water conditioner and nitrogen cycle management formula, now formulated for ponds and water gardens.

Item #	Size	Treats
23016	16oz	4800 Gallons
23032	32oz	9600 Gallons
23128	1G	38400 Gallons

### FritzPond Ammonia Remover

Removes chlorine and chloramine and instantly detoxifies deadly ammonia from ponds.

Item #	Size	Treats
87016	16oz	1920 Gallons
87032	32oz	3840 Gallons
87128	1G	15360 Gallons

### Fritz Pond Dry A.C.C.R.

Highly Concentrated Dry Formula Neutralizes ammonia, chlorine and chloramines, protecting fish and other aquatic life in ponds and water gardens. Safe for live plants and pets.

Item #	Size	Treats
78020	20oz jar	4700 Gallons
78064	64oz jar	15040 Gallons
78125	1.25G bkt	45120 Gallons

### FritzPond Clarifier

Rapidly clears cloudy water, leaving your pond crystal clear.

Item #	Size	Treats
24016	16oz	4800 Gallons
24032	32oz	9600 Gallons
24128	1G	38400 Gallons

### Fritz Pond Algae Clean Out

Fritz Pond Algae Clean Out is the most concentrated EPA registered pond algacide available. Fritz Pond Algae Clean Out contains no copper, and is safe for all ornamental fish and plants when used as directed.

Item #	Size	Treats
25008	8oz	2839 Gallons
25016	16oz	5678 Gallons
25032	32oz	11356 Gallons
25128	1G	45424 Gallons
25320	2.5G	113560 Gallons

## FritzZyme® 360 Pond Cleaner

Powerful probiotic blends of naturally-occurring heterotrophic bacteria that effectively remove sludge from pond water. Available as a dry or liquid.

Item #	Description	Size	Treats
28016	Pond FZ 360 Liq	16oz	1920 Gallons
28032	Pond FZ 360 Liq	32oz	3840 Gallons
28128	Pond FZ 360 Liq	1G	15360 Gallons
77020	Pond FZ 360 Dry	20oz jar	12000 Gallons
77064	Pond FZ 360 Dry	64oz jar	36000 Gallons
77125	Pond FZ 360 Dry	1.25G Bkt	88000 Gallons

## Fritz Barley Extract

Promote a healthy and naturally clear pond, without the mess of barley straw.

Item #	Size	Treats
29016	16oz	8000 Gallons
29032	32oz	16000 Gallons
29128	1G	64000 Gallons

## Fritz Blue Dye

Turns pond water a beautiful, vibrant blue. Helps to conceal fish from predatory birds and wildlife such as raccoons.

Item #	Size	Treats
26008	8oz	4000 Gallons
26016	16oz	8000 Gallons
26128	1G	64000 Gallons

## Fritz Pond Alkalinity Booster

A safe and effective way to raise pond alkalinity. Some buffer products use only sodium bicarbonate to raise alkalinity, which can cause a dangerous "pH bounce". Contains a full spectrum of buffering agents, helping to prevent "pH bounce".

Item #	Size
54020	20oz jar
54064	64oz jar
54125	1.25G Bkt

## Fritz Pond Waterfall Cleaner

Fritz Pond Waterfall Cleaner is a fast-acting oxygen-based powder that cleans decorations, planters, pond stones and other surfaces in and around water features.

Item #	Size
57020	20oz jar
57064	64oz jar
57125	1.25G Bkt
