Pro - Up to 100 gal	58804
Pro FW - Up to 100 gal	58808
MaxOut - Up to 75 gal	58803

FUZZOUT helps combat Hair Algae in the aquarium. FUZZOUT removes all toxins, metals and odors in the water column while simultaneously providing bacteria that oxygenates the water column. FUZZOUT aids in the removal of phosphates and reduces the buildup of algae and organics. FUZZOUT cannot be regenerated and should be discarded once the product has been exhausted.

#### Directions/Dosage

Turn off circulation and remove by hand all large patches of hair algae. Once completed, return aquarium to full operation. Place Fritz FUZZOUT in a high flow area of the sump or filter chamber. Do NOT Overdose. Product will begin working immediately. For best results remove Fritz FUZZOUT after two weeks of treatment and perform a 20% water change. Using reverse osmosis water is recommended. Repeat treatment if hair algae is still visible.
