

WATERFALL CLEANER

Oxygen-Based Cleaner for Ponds & Water Garden

- Prevents & Reduces Odors
- Fast-Acting, Oxidizes Debris
- Use To Spot-Treat Waterfalls & Streams
- Non-toxic & Safe Around Fish, Birds, Pets & Plants, When Used as Directed

Fritz Pond Waterfall Cleaner is a fast-acting oxygen-based solution that cleans decorations, planters, pond stones and other surfaces in and around water features. Effectively Cleans: Rocks, waterfalls, fountains, statues, bird baths, plant pots, stone surfaces, koi & goldfish ponds, water gardens, and aquariums.

Dosage / Instructions:

For light debris, use 2 tablespoons per 1,000 US gallons (3,785 L). For heavy debris, use 5 tablespoons per 1,000 US gallons.

Before use, temporarily turn off waterfall, pumps and filtration. Manually clean and remove as much debris as possible before application. Directly treat affected areas. To spot treat problem areas with heavy buildup, apply a light layer of powder directly to surfaces such as rocks and waterfalls. Avoid applying directly to live ornamental plants and filter media.

For spot treatment, use 2 tablespoons per square foot. Restart pumps and filtration immediately after application. Allow 24 hours for product to work, reapply once per week if needed. Monitor ammonia and nitrite levels for 48 hours after use, if levels rise above 0.5 mg/L, apply Fritz Pond Ammonia Remover.
