

CONCENTRATED CHLORINE REMOVER

Removes Chlorine & Chloramines

- Instantly Removes Chlorine and Chloramine in Freshwater, Saltwater, Reefs and Ponds
- Simple Dosing
- Concentrated, Economical Formula
- Essential for Water Changes
- Will Not Decrease pH in Saltwater Like Competitive Products
- 100% Phosphate Free
- Nontoxic to humans, pets and aquatic life.

Fritz ProAquatics Concentrated Chlorine Remover is a pH buffered, sodium thiosulfate based solution designed to immediately and safely remove chlorine and chloramine from tap water.

Dosage / Instructions:

Use 1 teaspoon (5 ml) per 150 gallons (567 L). 1 fluid ounce treats 1,000 gallons. This dosage will remove 1 ppm chlorine, for water with higher levels of chlorine and chloramine, increase dosage accordingly.

CAUTION: Avoid contact with eyes, skin and clothing. Wash hands after handling.

STORAGE: Store in a cool, dry place with cap tightly sealed. Keep out of reach of children.
