

BARLEY EXTRACT

Natural Clarifier For Ponds & Water Gardens

- Naturally Clarifies Pond Water
- Safe for All Plants and Aquatic Life
- Concentrated, Easy to Use Formula

Fritz Pond Barley Extract is the all-natural way to keep pond water clear. Barley Extract provides the same benefits of barley straw but without the mess. Enzymes derived from the natural barley fermentation process help promote a healthy and naturally clear pond. Use every other week to naturally maintain clear water. Unlike harsh chemicals found in competing products, Barley Extract works over the course of several days.

Fritz Pond Barley Extract is compatible with FritzZyme® biological products and all other Fritz Pond conditioners and clarifiers.

Dosage / Instructions:

If using as a initial dose, use 1 cup (8 oz) per 500 US Gallons (1,893 L). For maintenance dosing, add 1 oz (1/8 cup) per per 500 gallons. Add maintenance dose every other week. Discontinue use when water temperature falls below 45°F.

Available Sizes / Item # / Treats

| Size / Treats | Item # |
