Fritz COMPLETE

Full-Spectrum Water Conditioner

- One-Step Nitrogen Cycle Management
- Does Not Affect pH
- Will Not Over-Activate Skimmers

Fritz Complete is a true all-in-one water conditioner and nitrogen cycle management formula. Fritz Complete instantly and permanently eliminates chlorine and chloramine from tap water as well as detoxifies ammonia, nitrite and nitrate. Fritz Complete is safe for all freshwater and saltwater aquariums, including reef and planted aquariums. Fritz Complete will not interfere with biological filtration or affect pH.

Dosage / Instructions:

Use 1 cap (1tsp/5ml) per 50 U.S. Gallons (189 L). For best results, add Fritz Complete to tap water before adding water to aquarium. If treating aquarium for ammonia, nitrite, or nitrate, base dose on aquarium volume. For extremely high levels of chloramine or nitrite, dosage can be repeated or increased up to 5x within a 24 hour period. DO NOT OVERDOSE. A sulfur odor is normal and dissipates rapidly after use. In certain rare conditions and in low oxygen environments this product may reduce dissolved oxygen levels; ensure there is adequate circulation/aeration before adding. This product will effect the accuracy of Nessler type ammonia test kits and Winkler type oxygen test kits. Salicylate ammonia test kits are recommended.

Available Sizes / Item # / Treats

Size / Treats	Item #
