

Trusted by Hobbyists & Professionals for over 30 Years.

RPM

REEF PRO MIX

Complete Marine Salt

- ▶ Complete professional marine salt mix for reef or fish-only systems
- ▶ Contains all essential major, minor & trace elements in correct levels
- ▶ Enhanced buffer levels; reaches a stable natural pH shortly after mixing
- ▶ Enhanced calcium, magnesium and potassium levels
- ▶ Nitrate, phosphate & ammonia-free

Fritz ProAquatics Reef Pro Mix (RPM) is manufactured using only the highest quality raw materials. Formulated by researchers and marine scientists, RPM contains all of the necessary major and minor elements of natural sea water that are utilized by living marine and reef animals. Correct pH and buffering capacity, essential minerals and trace elements have been added in precise ratios to ensure a correctly blended mix for the health and longevity of your livestock.

RPM is manufactured in our own facility in small batches to ensure complete quality control, rather than outsourced to generic chemical blenders with uncertain quality. Our salt blending equipment is devoted solely to the production of aquatic products, preventing contamination issues. Fritz's unique production process promotes a uniform particle size minimizing stratification of the salts. Each 1,000 lb batch is assigned a lot number and tested by in-house quality control to ensure its chemical quality and purity before it is shipped.

RPM is used by public aquariums, zoos, research institutions, destination retail locations, adventure parks and hobbyists worldwide.

Parameters			
SALINITY	30PPT	32PPT	35PPT
CALCIUM	403ppm	430ppm	470ppm
MAGNESIUM	1221ppm	1302ppm	1425ppm
ALKALINITY	8.35 dkh	8.9 dkh	9.75 dkh
STRONTIUM	7.7ppm	8.2ppm	9ppm
POTASSIUM	343pm	366ppm	400ppm

Item No.	Size	Treats (30 ppt)
80280	14lb Bag	53 Gal
80270	48lb Bucket	180 Gal
80243	55lb Box	205 Gal
