

## AQUATICS

**FritzZyme® 7 Live Nitrifying Bacteria** is a blend of naturally-occurring freshwater-specific nitrifying bacteria proven to instantly establish a new or strengthen an existing biofilter, greatly reducing the natural cycle time allowing for safe, immediate addition of livestock. FritzZyme 7 can also be used to re-establish nitrification in existing systems experiencing a loss of the biofilter due to power loss, medications, equipment failure, etc.

**FritzZyme® TurboStart® 700** is the same blend of bacteria as FritzZyme 7 in a highly-concentrated, professional-grade solution. TurboStart nitrifying bacteria is trusted by zoos & public aquariums worldwide.

**FritzZyme® 360 Biological Aquarium Cleaner** Unlike many “fresh & saltwater all-in-one” products, FritzZyme 360 contains a synergistic, unique blend of bacteria species chosen for their ability to quickly break down and digest organic waste in freshwater aquaria that left unchecked will cause harmful ammonia and nitrite spikes. When used regularly, FritzZyme 360 will result in a cleaner and healthier aquarium, prolonged filter media life and less maintenance.

**Fritz Complete** is a concentrated, full-spectrum water conditioner that instantly detoxifies chlorine, chloramine, ammonia, nitrite and nitrate.

**FritzGuard®** is a pH-buffered water conditioner that neutralizes toxic chlorine, chloramines and heavy metals found in tap water. FritzGuard also promotes healing and reduces fish stress with Aloe Vera, Vitamin E, and provides necessary electrolytes.

**Fritz Ammonia Remover** instantly, easily and safely detoxifies toxic ammonia. Also detoxifies chlorine and chloramine from tap water. Will not alter pH or deplete oxygen levels

**A.C.C.R.** Dry ammonia, chlorine & chloramine remover. Instantly and safely detoxifies ammonia, chlorine and chloramines. A.C.C.R. is nontoxic and can be safely used in all types of fish and aquatic invertebrate culture.

**Concentrated Chlorine Remover** A pH-buffered, sodium thiosulfate-based solution designed to immediately and safely remove chlorine and chloramine from tap water. Will not decrease pH.

**Fritz Glass & Acrylic Cleaner** is a unique streak-free and drip-free formulation helps repel dust, fingerprints and water spots. Ammonia-free and safe to use on exterior surfaces on and around the aquarium. Also, great for electronics.

**Fritz pH Higher / Lower / Neutralizer**  
 Maintaining a balanced, stable pH is vital to the health of aquarium livestock and efficiency of the bio-filter. Fritz pH Higher, pH Lower & pH Neutralizer are concentrated, safe and easy to use formulations to adjust and maintain the correct pH for both freshwater and saltwater aquariums.

**Fritz Clarifier** is a 100% phosphate-free formula that will not affect biological filtration, pH or other essential water parameters. Safe and effective for use in fresh and saltwater, including reef and planted aquariums.

**Fritz Algae Clean Out** is the most concentrated EPA registered aquarium algacide available. Fritz Algae Clean Out is safe for fresh and salt water aquariums, and targets common aquarium algae including string algae, blanketweed and green water caused by single-celled algae.

## Aquatic Remedies

### Methylene Blue

- Prevents Disease Spread in Transport
- Effective Fungus Control
- Aids in General Disease Control

### Malachite Green

- Removes Fungus From Fish
- Expels Parasites and Protozoa
- Protects Fish Eggs from Infection

### Chelated Copper Sulfate

- Aids against Ich
- Effective for Protozoan and Parasitic Problems
- Prevents Parasitic and Fungal Infections
