

FritzZyme® POND 360

Water Conditioner For Ponds & Water Gardens

- Reduces & Simplifies Maintenance
- Promotes a Clean, Clear and Healthy Pond
- Sludge Eliminating Bacteria Rapidly Digest Waste
- Naturally Reduces Odors and Clarifies Water

FritzZyme® Pond 360 is a concentrated formulation of freshwater-specific strains of beneficial sludge removing bacteria. Using FritzZyme 360 monthly as part of regular maintenance will help keep ponds clear of sludge and pollutants including fish waste, leftover food and other decaying organic matter. FritzZyme Pond 360 is safe for all fish, plants and wildlife. Available dry, liquid, or in water-soluble bags.

Dosage / Instructions:

LIQUID: If using as a initial dose, use 1 capful (5ml) per 10 US Gallons (38L). 1 cup treats 960 gallons. For maintenance dosing, use 1 capful per 20 gallons or ½ cup per 960 gallons *every two weeks*. Shake well.

DRY: If using as a initial dose, use 1 tsp (1 oz) per 500 US Gallons (1,892L). For maintenance dosing, use 1 tsp per 1,000 gallons (3,785 L) *every two weeks*.

Add directly to pond in an area of high flow to allow product to circulate. Turn off UV sterilizer (if present) for 48 hours after application.

NOTE: An earthy odor is normal - a natural result of biological activity.

Available Sizes / Item # / Treats

Size / Treats	Item #
16 oz (1,920 gal)	28016
32 oz (3,840 gal)	28032
1 gal (15,360 gal)	28128
